

M-H Builders Completes High Performance Home

For Immediate Release: Durango, CO
January 22, 2013

Mantell-Hecathorn Builders Inc. announces the completion of an ENERGY STAR high performance custom home at Durango Mountain Resort with a projected homeowner utility savings of \$3,300 per year.

This home received a HERS rating of 46 by a third-party verifier, making it 54% more energy efficient than a new code-built home. The home features triple-pane windows, tested air-tight construction, higher insulation values and structurally insulated panel walls. Advanced building science knowledge is essential to the design and construction of this superior home. Principals Greg and Hunter are the only builders in Colorado to hold the Master Certified Green Professionals credential.

Mantell-Hecathorn Builders, Inc., an ENERGY STAR Partner, has been building custom projects for over 38 years. They have developed a distinguished reputation for excellence, craftsmanship and service. Their work ethic, experience, commitment to their clients and leadership in certified energy efficient building have made them one of the most trusted builders in Durango.
